DEFCON 5 PANTHER PANT

Code: D5-3416

Brand: Defcon 5 2024

Pant mod. Panther pant (60 % cotton - 40 % polyester) is a garment that respects the main elements typical of the tactical trousers but at the same time approaches a more civilized cut, giving the possibility to wear it to a wider audience .

In fact, the trousers have a more "dry" wearability that fits well with an exercise or walking shoe.

They have two spacious multi-purpose pockets with velcro closure and two pockets with zip closure.

The upper pockets have reinforced edges for attaching knives, multi-purpose pliers, etc.

A buttonhole stitched at the belt loop allows you to attach personal effects such as keys, identification cards, etc.

Panther pants have been appreciated in many static and dynamic polygons for their versatility and comfort in movement.

A rear elastic allows you to increase comfort and fit in different sizes.
