Made in Italy Clothing

UYN MAN EVOLUTION XTREME COMFORT UW SHIRT LG_SL.

Code: UYN-U100362

Brand: UYN

Breathable, ergonomic, comfortable: UYN Evolutyon base layers are made with Natex bio-fibre for perfect climate control, with a Comfort Fit that allows the shirt to fit larger built men without additional seams. Ideal for intense activity at moderate temperatures.

- Comfort fit for larger build men
- Hypermotion: exclusive zero-seam shoulder construction for maximum freedom of movement and body postural support.
- Coolvent: the channelled inner surface promotes a constant flow of air. It quickly absorbs sweat, cools the body during activity and keeps the skin dry.
- Heatmemory: insulating air chambers store body heat and protect against cooling. This is especially important when your muscles cool down after the exercise phase. Your body stays warm and efficient.
- Resifit: elbow joints are subject to high levels of stress during exercise. This is why these areas are enclosed with a three- dimensional chamber system in order to create an insulating layer of air around the joints.
- Drylight: anywhere sweat accumulates, Drylight ensures wearing comfort. Thanks to its more permeable, ultra- absorbent knitting technique, moisture is quickly transported outwards.
