MACTRONIC CYCLOPE II - RECHARGEABLE HIGH POWER HEADLAMP 600 LUMENS 700 mAh

Code: MAC-THL0131

Brand: Mactronic

The Cyclope II headlamp is remarkably light and uses a specially designed head strap whose inside is covered with silicone to guarantee that the headlamp does not shift, especially during running or climbing. The lamp has a built-in magnet serving as a:

1. mounting for magnetic chargers.
2. mounting that fixes the lamp to metal elements to serve as a source of light.

The additional functions are:

- when worn on the head, Cyclope II allows free adjustment of the light angle, up to 180 degrees.
- a mounting for PALS webbing used in the MOLLE system used by military and police forces.
- a clip that fixes the lamp to the belt or other parts of the garment.

The lamp also comes with a quick magnetic charger with a built-in battery charge indicator.

With IP65 rating the lamp can be used in almost all weather conditions.

Cyclope II is fully protected from dust penetration and can also withstand a high pressure water jet.

Weight: 170 grams

Weight (Kg): 0.17
