HIGHLANDER AB-TEX WALKING GAITERS

Code: HL-GAT001

Water and mud in your boots can quickly turn a brilliant day into a miserable one so having good gaiters with you in the hills is an absolute must. These walking gaiters are made from our water-resistant Ab-Tex fabric and with a main zip fastening and a strong underfoot stirrup are designed to be easy to chuck on halfway up a hill if things start getting a bit boggy underfoot.

TOUGH – Made of 600D Ripstop Ab-Tex fabric with a strong underfoot stirrup, these full-length gaiters are lightweight yet sturdy and able to take scrapes and splatters.

STAY DRY – A water-resistant PU coating and zip storm flap give these gaiters a hydrostatic head of 1500mm, more than enough to deal with rain, long grass and mud.

KEEP UP – Securely held in place by a lace hook and with full length zip fastening and draw cord top, the gaiters will stay pulled up to their full height with no movement restriction.
