 IP67  
Standard

The set includes:  battery /  230V charger /  12V charger /  armstrap

The third flashlight in the Blitz series is a long-distance runner that can generate a max of 1,100 lumens with its Cree XP-L White LED. Blitz LR11 is a tactical flashlight with a specially designed reflector that can generate a 1,100 m long beam in Turbo mode. The other operating modes are High, Medium, Low and Flashing. The unit's operating time is up to 8 hrs. The flashlight is highly waterproof, as confirmed by its IP67 rating. Blitz LR11 weighs 835 g (with the battery) and is 90 × 265 mm in size. It is available in a battery version, with 3 × C (R16) batteries, or as a rechargeable model (Li-Ion). The charging time is 4 hours. The flashlight sports a battery charge indicator and a ring protecting it from accidental activation and deactivation.
